

Personal Best Day 2008

Allocation of Events

Centres have been allocated events based on responses to the survey issued earlier in the year. Centres who have not been allocated an event should listen for announcements during the day to supply officials to areas needed.

Centre officials are requested to arrive by 8:30am (7:30am for Hot Weather Program) to ensure that all equipment is at their event site and to set up the shade tent at the site. Centre officials are also required to dismantle the shade tent and place the equipment near the edge of the track for collection at the end of the day.
